

Homework 6

Ben Pfingston, Leah Peterson, and Alexis Rock

We are using R for this assignment (R Core Team 2023). To import the data, Müller (2020) created a package that helps us find the file we want to use in the assignment. Additionally, we are using the tidyverse to help organize our data (Wickham et al. 2019). Then, to create the figure, Wickham (2016) made a comprehensive package that allows us to make graphs and figures with multiple different formatting options.
